

How to manage profile and billing information

All the users of the system can configure their profile, so they can configure their personal information as well as their billing addresses and contact mediums.

Profile configuration

To configure the user profile, the first step is opening the Profile section located in the user menu.

In the displayed view, it can be seen that some information related to the account is already included (Username, Email, Access token). This information is the one provided by the IdM after the login process.

The profile to be updated depends on whether the user is acting on behalf an organization or himself. In both cases, to update the profile, fill in the required information and click on Update.

For users, personal information is provided.

In this case, Organizations are allowed to change its name and add/update website, description, logo and contact mediums. In order to do that, you should select the medium type (i.e. Email, Postal Address or Phone Number), fill the required fields and click on Save. Once you've created as many contact mediums as you need you should click on Update.

In the following images an example of each contact medium creation form is shown.

Furthermore, if you need to update any of the created contact mediums you should click the *Edit* button (example shown in the following image) of the specific contact medium and change the wanted fields. The same goes if you need to delete a contact medium, in this case you should click the *Delete* button.
