

# Checking DOME's about page

If the user wants to know further information about the Marketplace they can check DOME's about page by clicking on the "About" button shown at the header of the website.

On this section the user can find a brief description of what is DOME Marketplace, its benefits and several reasons of why choosing DOME.

The screenshot shows the top navigation bar of the DOME Marketplace website. The header is dark blue with the DOME logo on the left, which includes the text "DOME Digital Marketplace for Europe". Navigation links include "Publish your offering", "Browse", "About", "Dome blog", and "Contact". On the right side of the header, there are icons for a search function, a moon (dark mode), a shopping cart, and a user profile icon labeled "FI".

The main content area features a large blue background with the text "Discover DOME Marketplace" and "Your one-stop-shop for trusted Cloud and Edge services." Below this, a white box titled "What is DOME Marketplace?" contains the following text:

**What is DOME Marketplace?**

DOME Marketplace is a comprehensive online catalogue of cloud and edge offerings, available through a collection of independent marketplaces and different product and service providers.

The uniqueness of the DOME marketplace is its ability to generate and use verifiable credentials ensuring the publication of trusted services, according to EU regulation. In other words, it enables a standardised process to verify that services and providers are certified and trustable.

**Among its benefits, DOME Marketplace offers several advantages to users:**

- Provides trusted and standardised access to service providers' offers, matching customers' demands.
- Ensures verified and comparable qualifications across services and products.
- Facilitates simple and transparent transactions and service management.

## Why choose DOME?

DOME Marketplace, with this single aggregated catalogue of products delivered by pre-validated European suppliers, aims to streamline the procurement journey, improve vendor selection, reduce search and evaluation time, facilitate product comparison, accelerate purchasing processes and simplify spending analysis, benefiting both buyers and suppliers within the European ecosystem.

**Don't miss this opportunity and publish your offerings now!**

## DOME Marketplace: A central piece of Europe's Digital future.

DOME Marketplace is aligned with Europe's vision of a digital future powered by cloud computing. The marketplace has been deployed by the DOME project, as part of the European Commission's strategy to co-invest with Member States in the development of new digital infrastructures, as well as to improve existing capabilities at both national and EU levels.

The goal is to provide European companies and public organisations with the single-point access to trusted cloud and edge services, necessary for digital transformation. In this context, DOME Marketplace has been designed to offer a better and greater availability of trusted cloud and edge services, offered by providers and marketplaces members of the DOME ecosystem,

focusing on increasing the adoption of these services among public and private entities, particularly in sectors that handle sensitive data, and who may be lagging behind in cloud adoption. This marketplace is a fundamental part of the EU's objective to strengthen open strategic digital autonomy and boost Europe's digital future.
