# Stripe API key guide

How to Locate Your Stripe API Keys

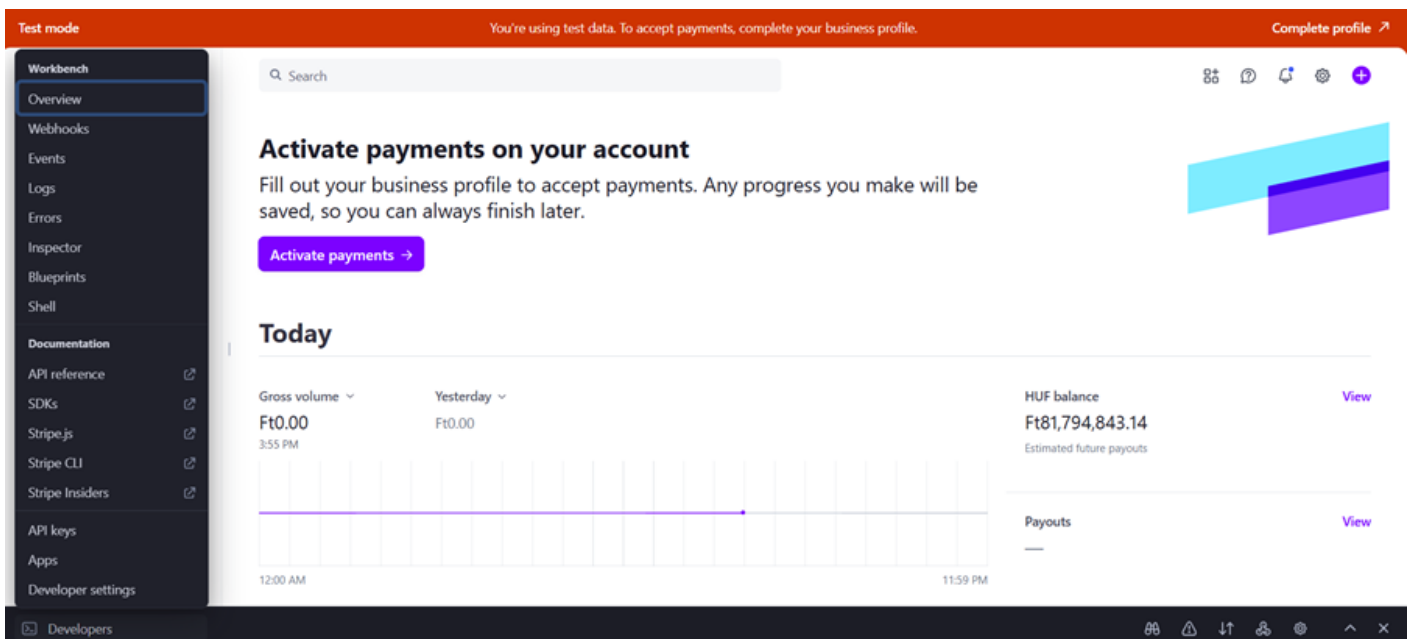

## Step 1: Log In to the Stripe Dashboard

Go to <https://dashboard.stripe.com/login> and sign in with your merchant credentials.

## Step 2: Go to the 'Developers' Section

Once you're logged in:

1. Click on 'Developers' in the left-hand sidebar.
2. Then click on 'API keys'.

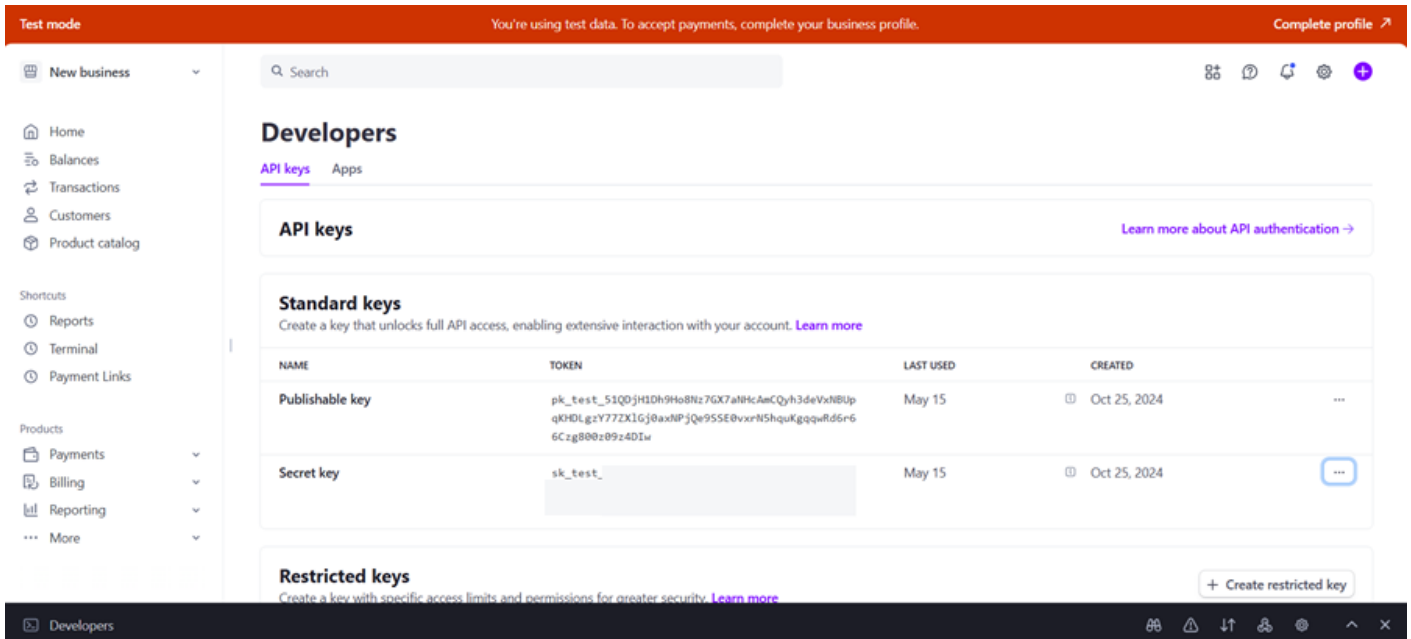

The screenshot displays the Stripe dashboard interface. At the top, there is a red banner with the text "Test mode" on the left and "You're using test data. To accept payments, complete your business profile." in the center. On the right of the banner is a "Complete profile" link. Below the banner is a dark sidebar on the left containing a menu with items like "Workbench", "Overview", "Webhooks", "Events", "Logs", "Errors", "Inspector", "Blueprints", "Shell", "Documentation", "API reference", "SDKs", "Stripe.js", "Stripe CLI", "Stripe Insiders", "API keys", "Apps", and "Developer settings". The "API keys" item is highlighted. The main content area features a search bar, a "Search" button, and a "Complete profile" link. The primary heading is "Activate payments on your account", followed by a sub-heading "Fill out your business profile to accept payments. Any progress you make will be saved, so you can always finish later." and a purple "Activate payments" button. Below this is a "Today" section with a chart showing "Gross volume" for "Yesterday" at Ft0.00. To the right, it displays "HUF balance Ft81,794,843.14" and "Payouts". The bottom of the dashboard has a dark footer with "Developers" and various utility icons.

# Step 3: View Your API Keys

In the API Keys section, you will see:

- Publishable key (starts with pk\_live\_)
- Secret key (starts with sk\_live\_) – use this one when connecting your Product Provider profile with your Stripe account in DOME marketplace.

To reveal the Secret key, click on 'Reveal live key token'. It will only be shown once — copy and store it securely.

The screenshot shows the Stripe Developers dashboard. The top navigation bar includes 'Test mode', a warning 'You're using test data. To accept payments, complete your business profile.', and a 'Complete profile' link. The left sidebar contains navigation options like 'New business', 'Home', 'Balances', 'Transactions', 'Customers', 'Product catalog', 'Shortcuts', and 'Products'. The main content area is titled 'Developers' and has tabs for 'API keys' and 'Apps'. Under 'API keys', there are sections for 'API keys', 'Standard keys', and 'Restricted keys'. The 'Standard keys' section contains a table with the following data:

NAME	TOKEN	LAST USED	CREATED	
Publishable key	pk_test_51Q0jH1Dh9Ho8Nz7Gx7aNHcAeCQh3deVxNBUpqKH0LgzY77ZX1Gj0axNPjQe955E0vxxN5hquKggqrRd6r66Cz2g800z09z4DIw	May 15	Oct 25, 2024	...
Secret key	sk_test_ [REDACTED]	May 15	Oct 25, 2024	Reveal

## Security Tips

- Never expose your secret key in client-side code (like HTML or JavaScript).
- Use environment variables to store keys securely.
- If a key is compromised, rotate it immediately via the dashboard.

# Barion API key guide

How to Locate Your Barion API Keys

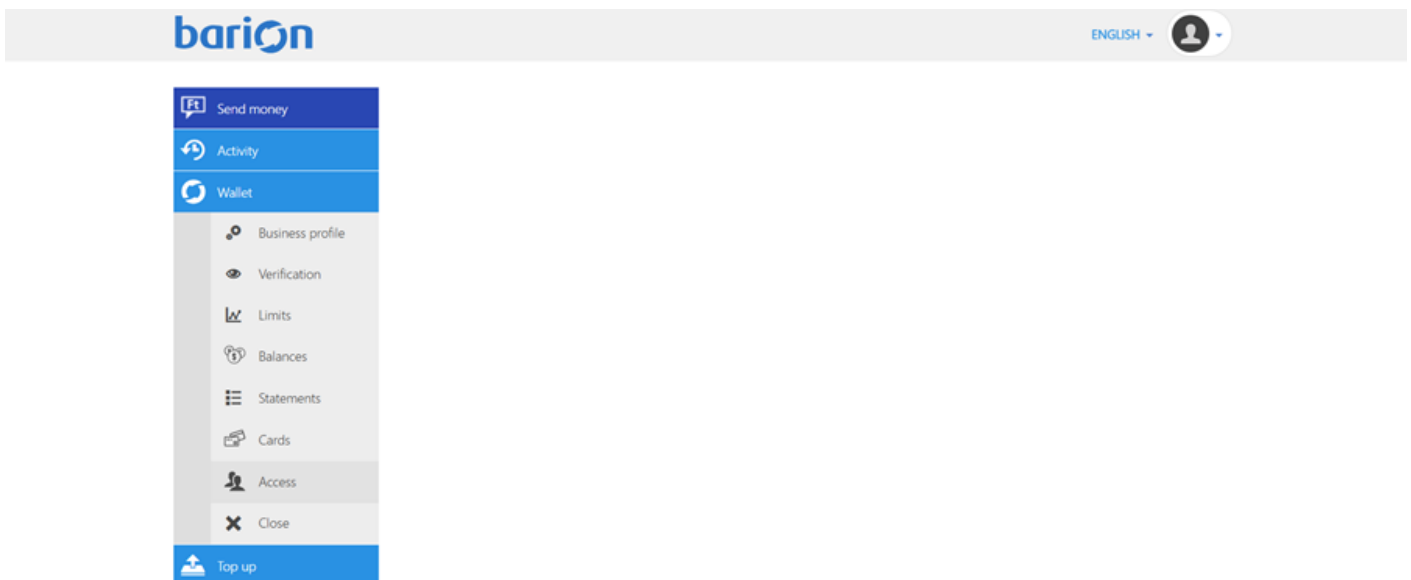

## Step 1: Log In to the Barion Dashboard

Go to <https://secure.barion.com> and sign in with your merchant credentials.

## Step 2: Go to the 'Wallet - Access' Section

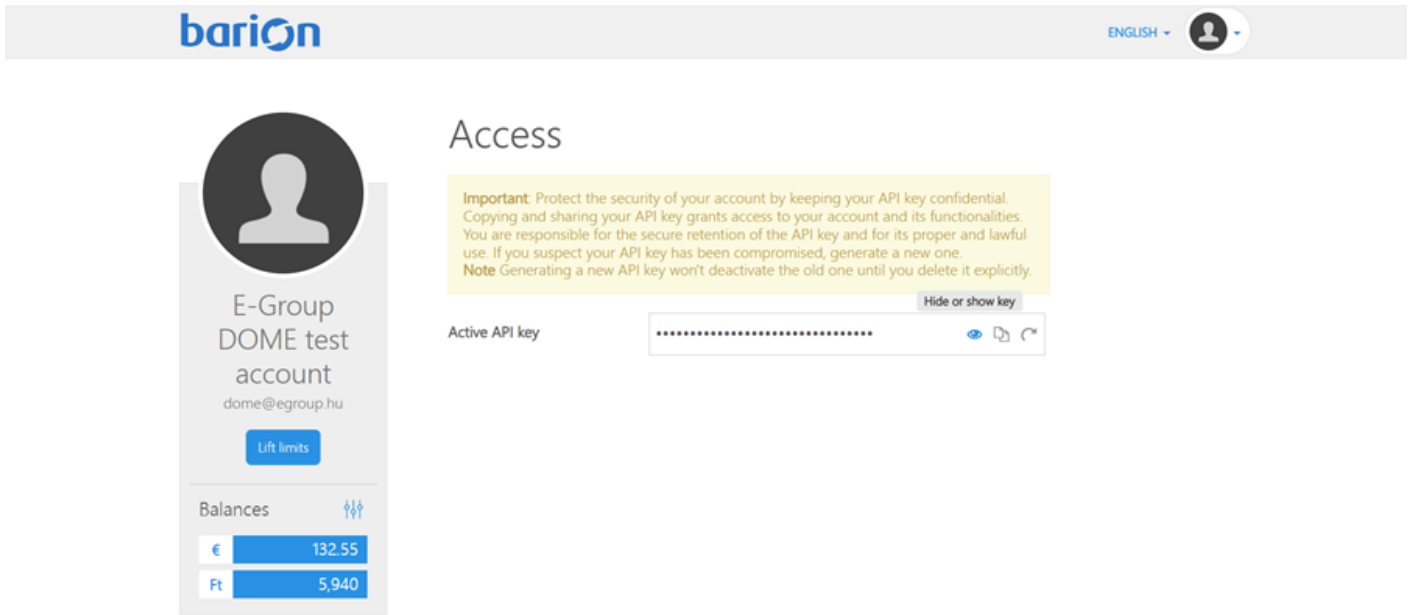

Once you're logged in:

1. Click on 'Wallet' in the left-hand sidebar.
2. Then click on 'Access'.

## Step 3: View Your API Keys

In the Access section, you will see your Active API Key.  
To reveal the Active API Key, click on 'Hide or show key'.

The screenshot shows the Barion user interface. At the top left is the Barion logo. At the top right, there is a language selector set to 'ENGLISH' and a user profile icon. The main content area is titled 'Access'. On the left, there is a user profile card for 'E-Group DOME test account' with the email 'dome@egroup.hu' and a 'Lift limits' button. Below the profile card is a 'Balances' section with two rows: '€ 132.55' and 'Ft 5,940'. To the right of the profile card, under the 'Access' heading, there is a yellow warning box with the following text: 'Important: Protect the security of your account by keeping your API key confidential. Copying and sharing your API key grants access to your account and its functionalities. You are responsible for the secure retention of the API key and for its proper and lawful use. If you suspect your API key has been compromised, generate a new one. Note: Generating a new API key won't deactivate the old one until you delete it explicitly.' Below the warning box, there is a section for 'Active API key' which shows a masked key (represented by dots) and a 'Hide or show key' button with an eye icon.

# Security Tips

- Never expose your secret key in client-side code (like HTML or JavaScript).
- Use environment variables to store keys securely.
- If a key is compromised, rotate it immediately via the dashboard.

For official documentation, visit: [https://docs.barion.com/Barion\\_Shop\\_Authentication](https://docs.barion.com/Barion_Shop_Authentication)

# Sumup API key guide

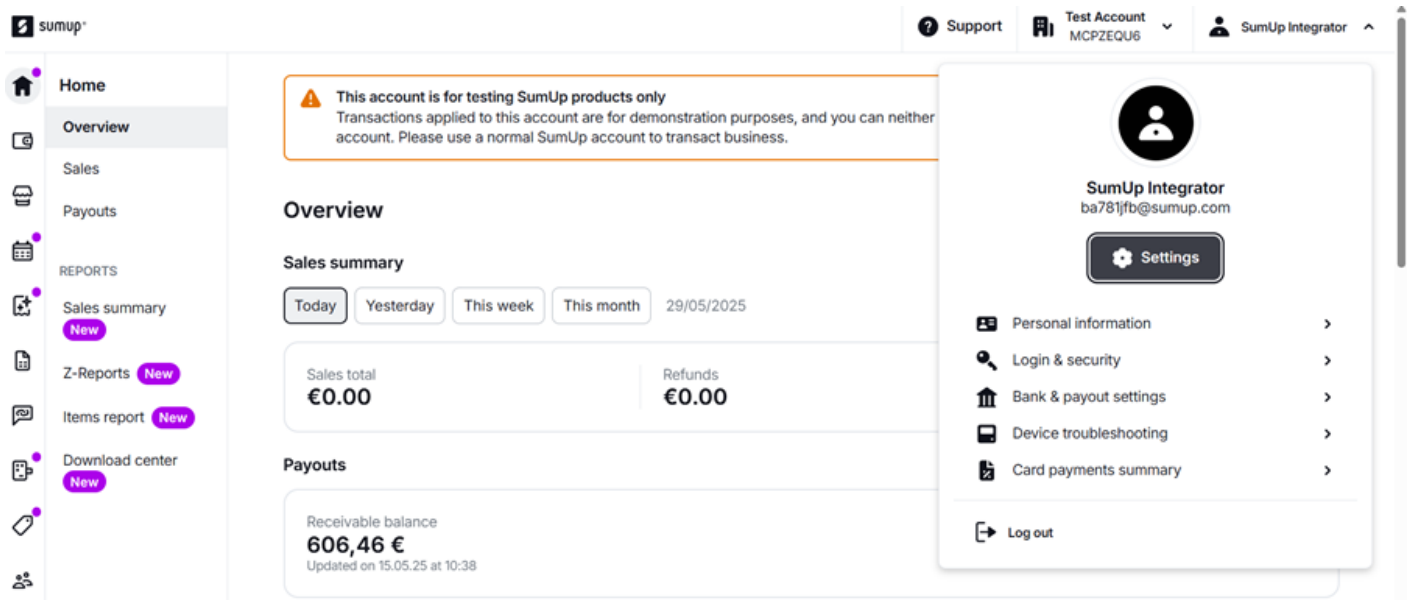

How to Locate Your SumUp API Key and Merchant ID

## Step 1: Log In to the SumUp Developer Dashboard

1. Navigate to <https://developer.sumup.com/>.
2. Click on 'Log In' and enter your merchant credentials to access your dashboard.

## Step 2: Navigate to the Settings Section

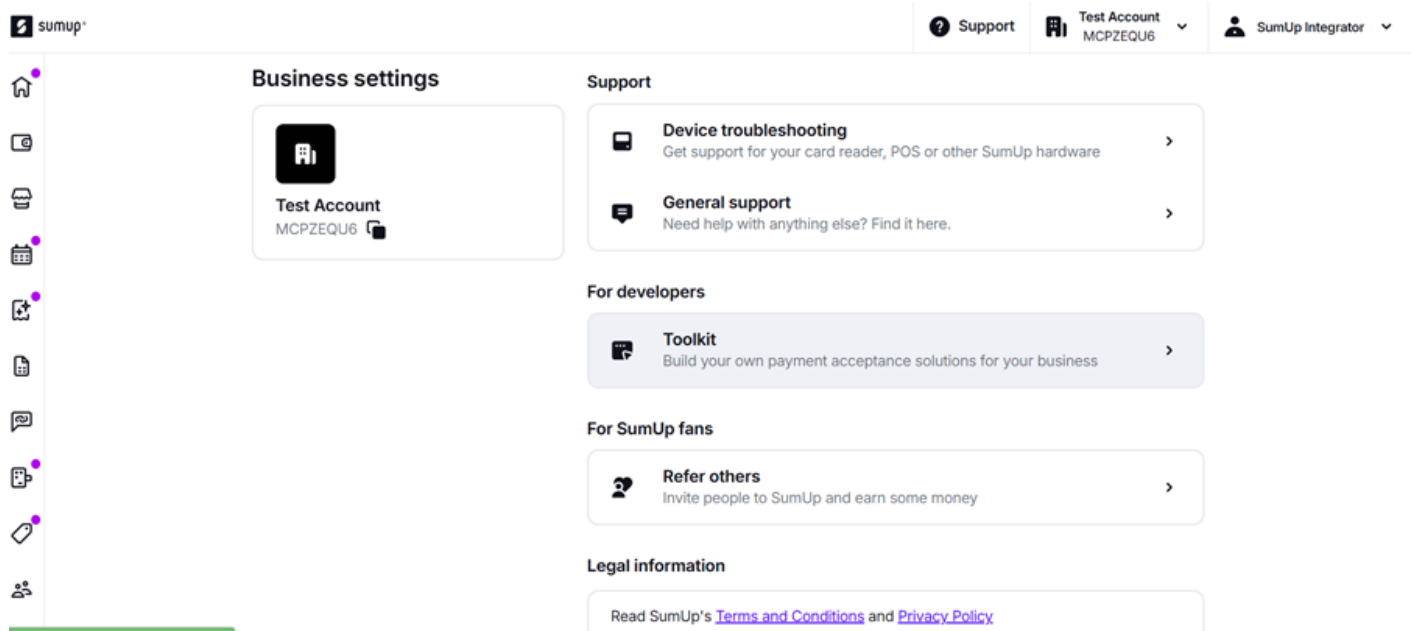

1. Once logged in, click on 'Account' in the top navigation menu.
2. Select 'Settings' from the dropdown menu.

The screenshot displays the SumUp Developer Dashboard interface. On the left is a navigation sidebar with options like Home, Overview, Sales, Payouts, and Reports. The main content area shows an 'Overview' section with a warning message: 'This account is for testing SumUp products only'. Below this, there's a 'Sales summary' table with columns for Today, Yesterday, This week, and This month, and a date selector set to 29/05/2025. The table shows 'Sales total' and 'Refunds' both at €0.00. A 'Payouts' section shows a 'Receivable balance' of 606,46 €, updated on 15.05.25 at 10:38. On the right, a user profile dropdown menu is open, showing the user 'SumUp Integrator' with email 'ba781ffb@sumup.com'. The 'Settings' button is highlighted, and other menu items include Personal information, Login & security, Bank & payout settings, Device troubleshooting, Card payments summary, and Log out.

# Step 3: Navigate to the For developers – Toolkit section

Select 'Toolkit'.

The screenshot shows the SumUp dashboard interface. At the top left is the SumUp logo. The top right contains a 'Support' link, a 'Test Account MCPZEQU6' dropdown menu, and a 'SumUp Integrator' dropdown menu. On the left side, there is a vertical navigation menu with icons for home, calendar, reports, and other dashboard functions. The main content area is divided into several sections: 'Business settings' with a 'Test Account MCPZEQU6' card; 'Support' with 'Device troubleshooting' and 'General support' cards; 'For developers' with a highlighted 'Toolkit' card; 'For SumUp fans' with a 'Refer others' card; and 'Legal information' with a link to 'Terms and Conditions' and 'Privacy Policy'.

# Step 4: Navigate to the API Keys section

Select 'API Keys'.

[← Toolkit](#)

## Authentication

Control how you authenticate when using SumUp APIs. For more information, see our [Authorization documentation](#).

- API Keys >
- OAuth2 Applications >
- Affiliate Keys >

# Step 5: Generate or View Your API Key

1. In the API Keys section, you can view existing keys or generate a new one by clicking on 'Create'.
2. Provide a name for your API key and assign the necessary permissions.
3. Click 'Save' to generate the key.
4. Copy the generated API key and store it securely.

[← API keys](#)

API keys are static authorization tokens that allow you to call SumUp APIs on your behalf. Read more about API keys in our [authorization guide](#).

### Public API key

Use Public API key when using SumUp Javascript SDKs on your website. For more information read our [guide](#).

sup\_sk\_...Kuc3J78V

[Delete](#)[+ Create](#)

# Step 5: Locate Your Merchant ID

1. While still in the dashboard, click on 'Account' in the top navigation menu.
2. Select 'Settings' from the dropdown menu.
3. Your Merchant ID will be listed under your account details and also on the top right corner under your account name.

## Important Security Notes

- Do not share your API key publicly or include it in client-side code.
- Store your keys in a secure location, such as environment variables or a secure credentials manager.
- If you suspect your keys have been compromised, revoke them immediately and generate new ones.

For more detailed information, refer to SumUp's official documentation: <https://developer.sumup.com/>
